THINKING OUT LOUD

By H. M. L.

The Nugget having offered five $5 prizes for as many different varieties of whiskers, feels that staff members, including this writer, should not ethicaly be compelled to enter the competition, though of course that will depend on our kangaroo court and its ideas of what constitute justice in the absolute sense.

It has been bourne in upon us, these last few days, while passing along streets that have suddenly become forested with whiskers that this male adornment, if it may be called that, is a wonderful camouflage. Countenances that were open and reflected a generous and affable nature, have suddenly become forbidding and repellant. Homely maps that beamed with a wholesome and humorous interest, have suddenly become handsome with an austere dignity.

In their beginning most beards, or so it seems to us, resemble some strange tropical desease of the skin. It is a pity that a man in the throes of whisker growing cannot undergo a kind of confinement in a hospital, emerging therefrom with a newborn beard. Instead he must start from scratch and parade his whisker effort under the appraising and critical eyes of his friends and neighbors fom the day they were first conceived.

One comforting thought must come to the man who can and does grow a beard. It is that the pants wearing, cigaret smoking, truck driving, and cocktail lounging, female of the species will not imitate him here. There behind his beard, whatever it is, mutton chops, chin, fringe, or full flowered, he will have the comforting assurance that no mere woman will emulate him. Those flowing whiskers mark him, set him apart, nobly distniguishing him as the male of the species. Male goats and gorillas have the same attributes is no matter; forget it.

Looking at the matter from the historical standpoint, especially those days of the Gold Rush when men and mighty few women, came from the far ends of the earth to dig gold out of these hills of ours, the whisker assumes an important place. Our poker playing grandsire concealed his emotions when betting on two deuces behind a mass of facial chaparral. On cold mornings the full length beard, meaning the kind that descended to the belt, kept the frost off the brawny chest. On forensic occasions when oratory was in order, the beard gave the speaker confidence and his words an oracular quality, issuing as it were from a pile of brush, rather than a mouth of cave as in the old Greek times.

We have wondered in this age of high speed when every minute must count in earning taxes for the government, why men do not cease and desist from using a razor. It takes at least 20 minutes of very valuable government time to shave the whiskers. It takes this time 365 days a year. Let the reader figure out the number of days a man uses up annually in the vain business of shaving and see what a difference that would make if he devoted the time to earning his taxes. There would also be the immense saving in razor blades and lather. Some men could completely pay their federal taxes if they would give up shaving, others time shavings or shavings to meet the bill.

As contrasted with those "days of old and days of gold." we of this modern time look upon the bearded phiz as something of a joke. But in those old day when pranksters cut off or pruned the whiskers of a sleeping Argonaut it was no laughing matter. When he waked and discovered the calamity, he sought out the jokers with a gun in each fist and often quick footwork only saved blood spilling. In those days a man's whiskers and the way he wore them or the way he chewed them in a rage marked him for the man he was, to be respected at all times, or else.

NO RHYME NOR REASON IN OPA RULINGS

May 23, 1946

Editor:
Nevada City Nugget,

In the classified columns will be found mention of a cottage now vacant. Unfortunately it comes under the ban of Placer-Nevada Defense Rental Area, otherwise known as OPA. It is understood summer resort areas are not under rent control. How would one classify Lake Olympia and Glenbrook Park? The Glenbrook adjoining Lake Olmypia near Grass Valley and Nevada City, California, was launched in 1932. Each year vacant houses have been offered to the traveling public and used as summer vacation cottages.

On October 1, 1945 Rent Control was made effective in this area, with no consideration for summer tourists.

We all know gasoline rationing simply eliminated most transient business. Therefore during the summer of 1942 construction crews from Camp Beale were accommodated. The following summers of 1943, 1944 and 1945 personnel from Camp Beale and DeWitt General Hospital were principal tenants on a monthly basis. Now OPA demands some evidence that these cottages were rented during that period on a resort basis. Such demands are impossoble and unfair. Constitutional rights have been violated. Until justice is rendered the houses will be kept closed as fast as vacancies occur.

No consderation has been given property owners for increased maintenance costs which have been heavy Housing shortage, no shirts, no butter, no meat and general shortage of commodities can be laid at the door ofcongress. Our honorable legislative body is responsible for the unfair and dictatorial rulings of the OPA. In addition one meets indifferent, inefficient and arrogant personnel.

Unless some change is made soon, our national economy will be gradually wrecked. No one objects to reasonable price and rent control. Manufacturers, business and landlords are being subjected to much unfair treatment and voters should scan the names of present incumbents in congress with the greatest care.

GLENBROOK PARK
MANAGEMENT.

J. EARL TAYLOR CALLED TO REST

J. Earl Taylor prominent for many years in the business life of Grass Valley and former president of the Nevada County Narrow Gauge Railroad, died Monday at 12:18 P. M. in the Jones Memorial Hospital at the age of 66.

Some months ago he underwent surgery and had so far recovered that he was able to take short motor trips. But a few days ago he returned to the hospital and his health steadily failed.

His activities in business included the Taylor Real Estate and Insurance Company the Taylor Foundry and Engineering Company and the narrow guage railroad until its sale three years ago.

He was interested in many enterprises for the promotion of Nevada County such as the Nevada County exhibits at world expositions in San Francisco and the annual state fairs at Sacramento. He was instrumental in financing and building Bret Harte Inn.

Surviving are his wife, Mrs. Emily Taylor of 245 East Main Street and daughters Mrs. Marian Newlove of Leadville, Colorado, and Mrs. Sybil Jones of Concorn. Four grandchildren are bereaved.

Funeral services took place under the direction of Hooper and Weaver Mortuary in St, Patrick's Catholic Church this morning at 10:30 o'clock. Interment will be in the Catholic Cemetery.

The Grass Valley Townsend Club has scheduled a dance for June 1 in Deschwanden Hall in Gold Flat. Dancing will begin at 8 o'clock p. m. and the public is cordially invited.

On June 2 in the same hall the Townsend District Council meeting will be held and a potluck dinner served prior to the meeting.

NEVADA CITY

SEVENTY-FIVE YEARS AGO
—AND—
FIFTY YEARS AGO

NEVADA CITY 75 YEARS AGO

James Mullen and Patrick Lanagan were sentenced to four years each in San Quentin for the crime of highway robbery committed on Mill Street in Grass Valley. After the holdup the victims followed the robmers into town and pointed them out to the officers. Mullen was tried and convicted and Lanagan pleaded guilty. They were taken to San Quentin by Sheriff McBrown and the county jail was vacant for the first time in its history.

More buildings were being erected and more improvements made in Nevada City than at any time in many years. The buildings on Pine St. destroyed by the recent fire were being replaced and painted and carpenters all over town had more to do than they could attend to. All business in Nevada City was more lively than it had been for years.

J. J. Rogers incumbent, was announced as a candidate for re-nomination for county clerk on the Democratic ticket. Rogers had been a good clerk and the only objection to his election was that he did not belong to the right party.

The alarm of fire was occasioned by the burning of a flue connected with the cookery range in the New York Hotel. The flames were extinguished in a few minutes causing slight damage.

NEVADA CITY 50 YEARS AGO

The county's new flag was hoisted to the mast head at the court house for the first time.

The senior class of the local high school attended the commencement exercises of the senior class of Grass Valley high school and in the evening of the same day were invited and attended the senior ball in that town.

Frederick Tillman purchased a fine stereoptican outfit while on a visit to Arizona and intended to make an exhibition tour of California with Nevada City as the starting point. He engaged Will Ashburn of this city to act as lecturer.

Plans were being made for the observance of Decoration Day on May 30. A procession composed of the GAR post, the military company and school children was to leave the city at 10:30 a. m. and march to the cemetery led by Goyne's band. In the evening a program of literary exercises, instrumental music and addresses was to be presented at the theatre. It was hoped that all business houses would close their doors for a portion of the day and that all flags would fly at half staff.

Dr. C. W. Chapman, J. E. Carr, E. J. Rector, Charles Pecor and Ed W. Schmidt comprised a committee to canvass the businesses of the town for the purpose of subscribing money enough to warrant a three day 4th of July celebration. A letter was also received by the general committee from George Weston, a San Francisco aeronaut offering to come here for the celebration and give an exhibition of balloon ascension and parachute drop.

SAN FRANCISCO GETS AIR FREIGHT TERMINAL

SAN FRANCISCO, May 23—San Francisco was selected because it is the heart of California's agricultural producing areas and is a great consumer market for middlewestern and Atlantic seaboard products.

Such was the statement of Emil Slick president of a flying freight organization made up of war veterans in announcing the establishment of the line's Pacific coast operational terminal at San Francisco airport. One specialiy of the air line will be flying vegetables and flowers grown in northern and central California to eastern markets.

LACK OF RAIN RAISES EARLY FIRE HAZARDS

Guerdon Ellis, supervisor of Tahoe national forest, yesterday said that the absence of normal spring rains, coupled with drying winds, has hastened the drying and curing of grasses carpeting the foothills and mountain slopes, to such an extent that they are now an extreme fire hazard and therefore all fire regulations are immediately in effect.

The regional forester, S. B. Show of San Francisco accordingly, under authority of Regulation T-1 Section H has declared smoking prohibited in Tahoe national forest, except at places of habitation, public camp grounds and special flag station posted as smoking areas.

Forest rangers have been instructed to post all areas that have been made safe for smoking by removal of fire hazards. These areas are at springs along trails and at stream crossings on moutnain roads.

DOG AND COW FOUND ALIVE IN ADJACENT SHAFTS

Forty five days without food or water, but still able to whimper and cry for help, Spot, the watch dog of Lady Jane Manor 10 miles west o. this city, was found by Charlie Morandi at the bottom of an old mine shaft 35 feet deep.

Morandi, a stockman was looking for a cow that has been lost two weeks. He found the cow, next door as it were to the lost dog, in another mine shaft only a few feet away, and at about the same depth. Both animals were brought to the surface by means of hoists.

The dog when he disappeared 45 days ago weighed 65 pounds and lost 45of them in the mine shaft. Neither animal had broken bones, accounted for by the fact they carried with them down the shaft a lot of old rotting brush which had covered the mine shafts for years as a kind of protection against stock.

Mr. and Mrs. Leanord Redman, proprietors of Lady Jane Manor report that Spot is rapidly regaining his strength. The cow suffered abasins and bruises and lost considerable poundage, but otherwise was uninjured and is now recovering.

BEAVER PLANTED IN 8 COUNTIES

SAN FRANCISCO, May 23—Live trapping by the Division of Fish and Game for the 1946 season started May 1 in the San Joaquin valley according to A. L. Hensley in charge of beaver management with the Bureau of Game Conservation. They will be planted on a statewide basis.

Two plants totalling eight beaver have been made thus far this season. They were in northern Ventura county.

An aerial survey of the White Mountains, Owens Valley and Inyo national forest has just been completed by Warden-Pliot A. L. Reese and Hensley. They reported locating several ideal spots for beaver plants in the Inyo forest. Hensley said the division would make at least two plants in the area in 1946 in cooperation with the U. S. forest service and the boy scouts.

Beaver trapping in California began in 1925 when 23 Sonora beaver were trapped on the Colorado river in Riverside county and placed in a Plumas county fur farm.

No plants were made again until 1934 when plants were made in Plumas and Tuolumne county by the U. S. forest service. Plants have been made by the Division of Fish and Game every year since then except in 1935 and 1937.

KNOWLAND URGES BILL TO OUTLAW GAMBLING SHIPS

WASHINGTON, May 23—U. S Senator William F. Knowland of California is urging enactment of his new bill to outlaw off shore gambling ships and their feeders, the water taxis in a determined effort to prevent the establishment of gangster dynasties in the state.

Knowland became irked at the success of a gambling ship operator in getting lumber to convert a vessel now riding off Southern California into a luxurious gambling barge while war veterans find it virtually impossible to obtain enough lumber to build homes.

Consequently he has introduced in the senate a bill making it a federal offense, punishable by heavy fines and prison sentences, to operate or permit gambling aboard a vessel anchored outside state jurisdictions.

The bill would make it actually illegal to transport persons to such gambling ships.

At the same time the California senator has demanded that the Civilian Production Administration tighten the loopholes in its regulations to prevent building materials from being diverted to gambling ship construction.

By his action here at Washington Knowland joined forces with the state officials striving to prevent circumvention of the laws of California, by making the state's problem one of national concern. In fact Knowlands proposed legislation would apply to all states and territories of the United States.

"This off shore gambling project is a threat to good government in California." Knowland said toda.'. "Failure to nip this business in the bud means that we will be confronted with gangland dynasties such as those which gripped American life during a bitter era of not long ago."

If one ship is permitted to operate off one portion of the state's shore, Knowland pointed out, "it won't be long before water taxis are plying their trade out of every other harbor of our state," in serving the gambling ships at sea.

The bill which the California legislator is pressing for early consideration would make it illegal for anyone to set up gambling aboard any vessel within the admiralty and maritime jurisdiction of the United States and outside the jurisdiction of any particular state. It would make it uulawful also to induce, entice, solocit or permit anyone to gamble aboard such ships. Violation would be punishable by imprisonment up to two years or a fine of $10,000 or both.

Similarly master of illegal water taxis would be fined $300 while the owner or charterer would face a penalty of $200 for each passenger carried to a gambling ship.

Farm Market To Open June 15

The Grass Valley Chamber of Commerce at its forum meeting yesterday heard the report of David Lamson its representative on the Nevada County Farm Market committee, who stated that the market would open on June 15 and would be open three days each week.

Lamson said that the Farm Market opened late last season with 7 farmers supplying it and before the season was over 30 were offering farm produce in the market stalls. He expected to see that number greatly increased the season, A fee of 3 per cent of gross sales is charged the farmers.

Art Rempel the chambers representative on the Whiskerino committee reported that during the first session sixty new members were admitted to the Whiskerino club each of whom is to qualify by growing a beard.

George Endter chairman of the chamber's air scout squardon stated that nine boys had entered the preliminary courses for membership and had been assigned project, that completed will entile them to become apprentice air scouts.

Ray I. Hays district airport engineer of San Francisco in a brief talk explained the steps necessary to obtain a part of the congressional appropriation for a community airport. He stated that a master plan must be submitted, preferably by the county board of supervisors, and this must be approved by federal authorities before funds are released to aid in construction.

VALLEY QUAIL MAY BE NATIVE OF NEVADA

Are the valley quail now common in the western half of Nevada native to this region as are the desert and mountain quail?

This question continues to intrigue students of natural history and is now being studied by Dr. F. Richardson of the University of Nevada biology department.

In 1880 a naturalist named Henry W. Henshaw reported that there were no valley quail east of the Sierras while eight years later records show that these birds were present in Esmeralda county where they are still plentiful.

Valley quail however are not found in the southern and eastern portions of the state where the desert and mountain quail have apparently always been present. It is a known fact that the first valley quail in the Paradise, Carson City, Fallon and Lovelock areas were introduced by man.

Proximity to California on the other hand indicates that the birds may be native to the far western portion of Nevada having at some early time migrated from the neighboring state.

The desert quail is found abundantly in the south. Nye, Lincoln and Clark counties particularly are the home areas of this species in Nevada.

This bird much resembles the valley quail and is some times so called in regions where the true valley quail is not found. A reddish topknot is the most prominent distinguishing feature, since the true valley quail has only the curled black plume atop his head.

The mountain quail which is larger than either the valley or desert quail has a straight plume crest instead of the curling feather common to the other two varieties. Found mainly in the western mountains of the state it ranges as far south as Esmeralda county which is the only county in the state to have all three varieties. The mountain quail apparently is native of the state.

Accurate data on the early day distribution of these birds is difficult to obtain. Richardson commented since no organized records have kept by the state. The most complete and detailed work available is called Birds of Nevada by Dr. Jean M. Linsdale but there is still much research to be done in this field.

Farewell Party For Tahoe Foresters

Some fifty employees of the Tahoe national forest gathered at Deschwanden Hall on the night of May 17 to honor four of their members and families who are leaving the Tahoe unit.

Harry W. Camp leaves on June 17 for Berkeley where he will join the experiment station staff on timber appraisal. Camp has been on the Tahoe for several years as resource manager of the forest. .

Norman E. Dole, Camptonville ranger is being transferred to the Shasta national forest as logging engineer.

Catherine Veale, former stenographer in the Nevada City office was also an honor guest.

John Lively fire suppression crew foreman of the Camptonville district is transferring to San Bernardino national forest.

The guests of honor were recipients of gifts. Songs led by Marv Shock suitable for the occasion wound up a highly successful evening.

Successors to those leaving the Tahoe have not yet been announced by Supervisor Ellis.

Senior Farce Will Be Given Tomorrow Night

The annual senior farce will be presented tomorrow night in the high school gymnasium. The play will be Life of the Party.

Carrying leading roles are Mary Eleanor Hawkins, Joyce Arbogast, Ed Johnson, Melvin Ruth, Don Atkins, Jack McLaughlin, Barbara Garesio and Leona Lotz.

GOVERNOR EXCORIATES PACKAGE DEAL

Governor Earl Warren today charged his opposition in the campaign for governor has only a shop worn package deal to offer the voters.

We ought to be discussing fundamentals in an important election of this kind but the opposition has been unable to show that we have not adhered to the principles o good government, Warren declared.

Instead he charged a group politically manipulated sat down night after ngiht in a smoke filled room and drove outall but one man of their party as aspirant for every state office.

They hand picked their own candidates, he said. Then they wrapped up one for each office in a package and handed it to the public—in the words of my opponent, as a package deal.

Package deals have been outlowed in merchandising, Warren said, because unscrupulous merchants used them as a device for getting rid of unwanted goods. It is a device for selling the public something it does not want and something it wouldn't buy unless beguiled into doing so. It was used in selling goods that wouldn't move from the shelves in any other way. Perhaps these goods were shopworn. Perhaps the public wouldn't need them. Sometimes they were even downright worthless.

Warren demanded to know who wrapped up this package deal? What were ther motives in doing it? By what right did they assume the power and authority to drive all exept their own hand picked candidates out of the primary election?

A package deal, the governor declared can e jbust as fraudulent in the public service as it is in merchandising and it is far more dangerous.

No Tracer Ammunition To Be Used In Forests

Fire prevention officials of the state division of forestry today cautioned the public of the illegality of possession and use of tracer ammunition on forest and brush lands throughout California.

Recent investigations show large quantities of tracer ammunition in civilian hands and with a potentially hazardous fire season ahead state fire prevention officials are extremely anxious to promulgate public understanding of the seriousness of the condition and the necessity for reducing all possible fire causes through the present fire season.

Relative to the potential fire hazard of tracer ammunition to forest and brush covered lands a fire prevention law was passed during the 1946 legislative session. This law is Section 4169 of the public resources code and reads: No person shall fire or cause to be fired any tracer bullet or tracer charge onto or across any forest or brush covered lands nor shall he have in his possession any tracer bullet or tracer charge on such lands.

A message to VETERANS

OF WORLD WAR II

FACTS ON YOUR RIGHTS IN BUYING SURPLUS PROPERTY

To improve veterans' priorities in the purchase of war surpluses, Congress has amended the Surplus Property Act. So that you as a veteran may have the facts direct, the War Assets Administration is taking this means to address you.

WAR ASSETS ADMINISTRATION
WASHINGTON 25, D. C.

May 3, 1946

TO ALL VETERANS OF WORLD WAR II:

As a veteran you are anxious to get all the benefits you can from war surplus. It is our desire to give you every possible preference, under the law, in purchasing the items you want.

By amendment to the Surplus Property Act of 1944, the War Assets Administrator has been authorized to reserve certain items for exclusive sale to you. They are listed below, but in fairness, we must tell you that quantities are not large, the demand is tremendous and you may not always be able to buy exactly what you want. Every veteran, however, will have the satisfaction of knowing that all items placed on the reserve or "set-aside" list are going to veterans like himself.

Subject to availability, you may purchase these items for your personal use, as well as for your business, professional, or agricultural enterprise. You may be sure that only World War II veterans will be entitled to purchase them.

The amended Act contains a second provision that further improves your buying position for your business, professional or agricultural enterprise. For items not included in this list, only Federal agencies buying for their own use may purchase ahead of you. This gives you, for business use, an advantage over State and local governments, tax-supported institutions, certified non-veteran small business enterprises and all other potential buyers except Federal agencies. For a specified period after the Federal agencies have had an opportunity to purchase surplus, all available items which do not appear on the reserve list will be available to you to purchase for your own business.

Under the amended Act you still must be certified to purchase war surplus, as thousands have done since the original Act was passed. The certification procedure has now been simplified, as explained at the right.

The War Assets Administration will make every effort to see to it that you receive the benefits Congress intends you to have. Your patience and cooperation will aid in the difficult task we face in trying to satisfy the needs of every veteran who wants to buy surplus property.

THE ADMINISTRATOR

What is set aside for you

The property listed at right is reserved for exclusive sale to veterans of World War II. These are the items in greatest demand by veterans. Large quantities are not available. You may have to wait some time before purchases can be made. So many veterans may already be ahead of you that you may not be able to make your purchase. But you may be sure that *only* veterans will have the opportunity to buy "set-aside" items.

HOW YOU CAN QUALIFY FOR YOUR PRIORITY

If You Are Already Certified:

Thousands of veterans of World War II have already been certified to purchase surplus items. Such certifications remain valid and may be used to purchase items for which you are certified whether the item is on your reserve or "set-aside" list or on other surplus lists. You will be notified either by mail or by public local announcement where and when to make purchases.

If you are not certified, or if you wish to change your certification to items on the "set-aside" list:

STEP 1. Take your honorable discharge from the armed services of World War II and apply at any of the offices listed below for a veteran's certificate for the item you desire.

STEP 2. Wait for mail or local public notice that the item for which you are certified is available and may be purchased. You may be sure that you *will* be notified and that you do not need to call in person to check the availability of the items you wish. You will be told where and when to buy.

STEP 3. Make sure that you follow up promptly the notice of availability when it reaches you by either mail or public notice.

CERTIFICATE OF DOING BUSINESS UNDER FICTITIOUS NAME

We the undersigned do hereby certify that we are co-partners doing business under the fictitious name and style of FOUR-O-XMAS TREE COMPANY; That our principal place of business is situated in Nevada City, Nevada County, California; that the names and addresses of the partners interested in said business are as follows:

Edward B. Doolittle, 421 Pine St., Grass Valley, Calif.

Karl M. Kopp, 417 Winter St., Nevada City, Calif.

Witness our hands and seals this 7th day of May, 1946.

(Seal)

EDWARD B. DOOLITTLE
KARL M. KOPP.

State of California
County of Nevada, ss.

On this 7th day of May in the year one thousand nine hundred and forty-six before me Frank G. Finnegan, Notary Public in and for the County and State, residing therein, duly commissioned and sworn, personally appeared Edward B. Doolittle and Karl M. Kopp known to me to be the persons described in, whose names are subscribed to and who executed the within instrument, and acknowledged that they executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal at my office in said County, the day and year in this Certificate first above written.

(Seal)

FRANK G. FINNEGAN,
Notary Public in and for said County and State.

My Commission Expires May 1, 1950.

To Honor The Dead - - Let's Help The Living

The increasing importance of veterans' affairs particularly commends the V. F. W. sale of Buddy Poppies this year. In supporting the V. F. W. National Home at Eaton Rapids, Michigan, this poppy sale gives the orphaned children of veterans an opportunity in life equal to that enjoyed by the average American child. These are both splendid purposes which recommend to all the wearing of a Buddy Poppy this year.

—Harry Truman

Never in history have so many given so much in defense of America —and asked so little in return.

To most Americans, World War II ended on VJ-Day. But for nearly 100,000 men confined to government hospitals—and for countless thousands of other disabled veterans whose minds and bodies bear the cruel scars of conflict—World War II will never be over. After 27 years of pain-racked experience and suffering, thousands of disabled AEF veterans of 1917-18 know this as the heart-breaking truth.

In the present difficult period of readjustment, the nationwide rehabilitation service of the Veterans of Foreign Wars is doing those things for veterans which the government is unable to do in their behalf—those things they cannot do for themselves.

The men who have given their lives—in times of war—to help make America a good country in which to live—in times of peace—sleep restlessly in their honored graves. Their souls will repose in peace only if we who live remain true to their memory; only if we who were untouched by the brutality of war will never let ourselves forget how much we owe to those who did the fighting.

When you wear a Buddy Poppy on Memorial Day, America's disabled and needy veterans will know that your interest in their welfare is practical and sincere. Why is this true? Because every penny of the proceeds of the annual sale of Buddy Poppies is devoted exclusively to veteran welfare and rehabilitation—and to the care and protection of homeless orphans of veterans.

As America's traditional "flower of remembrance," the Buddy Poppy is a symbol of our loyalty to that vast army of war veterans who must face the future with physical and economic handicaps.

Wear a Buddy Poppy on Memorial Day. Be counted among those who believe that practical and sympathetic assistance for the living —rather than imposing monuments—is the finest way to honor the vivid memory of America's hero dead.

Iron Tracer Experiments Made By Biochemists

BERKELEY, May 20—New information about iron metabolism has been reported by two University of California researchers who have completed animal tracer experiments with a superior radioactive type of iron produced in the atom smashing cyclotron.

The researchers Dr. D. H. Copp, instructor in physiology and Dr. D. M. Greenberg professor of biochemistry found that the bone marrow which is a factory for the manufacture of the red blood pigment hemoglobin is able to use the iron much facter than had been previously supposed.

They also found that the liver acts as a storage depot for iron. When needed this liver iron is transferred to the bone marrow to be used in the production of hemoglobin thus staving off anemia and other effects of hemoglobin shortage. The researchers found however that when manufacture of the hemoglobin is stimulated by iron deficiency by the action of small amounts of copper or cobalt or following a severe loss of blood there is little iron storage in the liver because the metal is being so rapidly use by the bone marrow.

Copp and Greenburg report that the iron appears in the red blood cells with amazing rapidity. Considerable amounts are found in these cells within 3 hours and within 24 hours one third to one half of all the absorbed radioactive iron has been transferred to them.

IOOF POTLUCK DINNER

Neva Rebekah Lodge and Oustomah Lodge, IOOF, are planning to hold a joint potluck dinner and dance tomorrow night, May 24 at 7 p. m.

Odd Fellows and their wives. Rebekahs and husbands and invited guests from Grass Valley and Nevada City will gather at the local hall for a social affair which is expected to draw a large conourse of fraternalists. The Grass Valley IOOF orchestra is providing the music for the dance.

The longest straight railroad track in the world is in Australia—328 miles.

From where I sit ... *by* Joe Marsh

Thad Phipps and the Garden Party

Thad Phipps' wife finally got him to the Ladies' Flower Club Lawn Festival and Garden Party.

At first Thad was mighty uncomfortable in his Sunday best, making polite conversation with the ladies, nibbling on watercress sandwiches. Until Milly Harztell comes up with a tray of ice-cold beer in frosty glasses.

"I suppose," says Milly slyly, "you'll think beer's a sissy drink." "Sissy drink!" says Thad emphatically. "Just because it's mild and moderate doesn't make it sissy! Beer's a *man's* drink!"

And then Thad sees that half the ladies there are sipping beer, as well as those who've chosen lemonade and cider, and he mutters: "I reckon it's a ladies' drink, too."

From where I sit, more and more people are realizing, like Thad, that beer doesn't belong to any special group or occasion—it's a wholesome American beverage that belongs wherever folks enjoy good taste and moderation.

Middle Class Growth In South America

BERKELEY, May 20—The continued growth of the middle classes in Latin America will be of greater aid to western hemisphere unity than any artificial attempts to promote good will, according to Dr. Herbert E. Bolton, Sather professor of history emeritus at the University of California.

This rising class says Bolton does not have the ties to Europe which were found in the groups that have controlled the southern nations politically in the past and are increasingly alert to the necessity for working together within the hemisphere.

As the middle class becomes an even more potent force in the national affairs of their individual countries their common aims will make for increasing cooperation among nations. Bolton believes. He point out that the development closely parallels the growth of our social and economic system.

CHRISTIAN SCIENCE CHURCH

Christian Science Society of Nevada City holds services every Sunday in their church 114 Boulder St. at 11 o'clock. Sunday school at 9:45 a. m. A Wednesday evening testimonial meeting is held on the first Wednesday of each month at eight o'clocck. Our reading room is now located in the church edifice at 114 Boulder St. and is open Mondays, Wednesdays and Fridays holidays excepted, from 2 to 4 p. m. The public is cordially invited to attend our services and visit the reading room.

Soul and body is the subject of the Christian Science lesson sermon for May 26 with the golden text from I Corinthians: Know ye not that you are the temple of God and that the spirit of God dwells in you?

The following citations are included in the sermon: I Corinthians 6: 20; For ye are bought with a price therefore glorify God in your body and in your spirit which are God's.

Science and Health with key to the scriptures by Mary Baker Eddy Question—What are body and soul? Ans. Man is the expression of soul. The Indians caught some glimpses of the underlying reality when they called a certain beautiful lake the smile of the great spirit.

Banner Mt. Posts Views Battle Scenes

Members of Banner Mountain Post, Veterans of Foreign War Monday evening enjoyed an hour's movie of famous battlefields of World War 11.

The pictures were taken from the libraries of the U. S. Army Signal Corps. Following the entertainment the regular meeting was held, after which refreshments were served.

Speaker Tells Of Burma-China Theatre

Major John Colling last night was guest speaker at a dinner meeting of the Laymeth Club in Wesley Hall.

Colling was formerly on the staff of General Hurley, U. S. Ambassador to China at Chunking. His topic was his experiences in the Burma-China war theatre.

Uncle Sam Says

This fool's cap fits none of my nephews, least of all you, who learned during the war that the easy way to save part of your pay was to sign up on the payroll savings plan. I am visiting in Philadelphia today. Philadelphia is the home of the Liberty Bell and Benjamin Franklin, who said a penny saved is a penny earned. If Franklin were alive, he would revise this statement to $3 saved in U. S. Savings Bonds are $4 in your pockets ten years hence. Franklin would agree with me that this fool's cap fits only those persons who think because the war is over it is no longer profitable for them to save by buying Bonds.

U. S. Treasury Department

RAM SALE BIGGEST SUCCESS IN YEARS

SAN FRANCISCO, May 23—The California Sheep Show and Ram Sale at the Sacramento County fair grounds at Galt last week was probably the most successful since the sales were started 26 years ago, headquarters of the California Wool Growers Association announced today.

During the two day auction a total of 1837 head—1517 rams and 320 ewes were sold for $117,424.50 an average for the sale of $69.08 per head. Last year 1810 were sold for $108,098.50 an average of $59.72 per head.

Top prices at this year's sale was $650 paid for a Suffolk stud ram. The ram was consigned by Charles Howland and sons of Cambridge, Idaho and was bought by B. B. Burroughs of Cambridge. A Hampshire stud ram consigned by R. W. Hogg and sons of Salem, Oregon was bought for $500 by Walter P. Hubbard of Junction City, Oregon.

The largest crowd in the history of the sale attended the auction and witnessed the Far West International Sheep Dog Trials which preceded the sale. The trials were won by James Palmer of Dixon with his dog Tweed. In the younger dog class Mack owned by George Phillip of Davis was tops.

SAN FRANCISCO, May 23—The will of the San Francisco voters, expressed last November that the farmers free market become a permanent institution was advanced another step last week when a appropriation of $62,000 for a permanent site was recommended to the board of supervisors by Mayor Roger D. Lapham and chief administrative officer Thomas A, Brooks.

The location probably will be in the south of Market area, adjacent to the Mission district.

The market which is now located at Market and Duboce streets, was started in the summer of 1943 as an emergenccy outlet for surplus fruit and vegetable crops which were perishing due to war time dislocations. So successful was this experiment that at the last November election the voters decreed 5 to 1 that the market be established on a permanent basis and the board of supervisors last month adopted an ordinance to that effect.

No. 4591
NOTICE TO CREDITORS
IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF NEVADA

In the Matter of the Estate of MARY ALICE MARTIN, Deceased.

Notice is hereby given by the undersigned Executrix and Executor of the Last Will and Testament of MARY ALICE MARTIN, deceased, to the creditors of, and all persons having claims against, the said deceased, to file them, with the necessary vouchers, within six months after the first publication of this notice, in the office of the Clerk of the Superior Court of the State of California, in and for the County of Nevada, or to exhibit such claims, with the necessary vouchers, within six months after the first ppblication of this notice, to the said Executrix and Executor at the law offices of James Snell, at No 152½ Mill Street in the City of Grass Valley, County of Nevada, State of California, which said law offices the undersigned select as their place of business in all matters connected with said Estate of MARY ALICE MARTIN, Deceased.

Dated this 21st day of May, 1946.

LOUISE MARTIN POLGLASE.
and EDWARD FRANCIS HOLLAND,
Executrix and Executor respectively of the last Will and Testament of Mary Alice Martin, deceased.

PLUMAS COUNTY WILL ELECT MINING QUEEN

GREENVILLE, May 23—Plumas County is going to have a mineral queen.

Plans for a contest climaxed by the coronation of the fairest daughter of that famous mining area were announced this week by the Plumas County chapter of the Western Mining Council. The contest is open to all Plumas county girls of the white race over 18 years of age and the winner will be crowned mineral queen on the night of July 6 as a feature of the Greenville 49er celebration.

The prize will be a trip to Hollywood as a guest of Warner Bros.

The primary object of the contest said J. H. Goodwin secretary-treasurer of the Plumas County chapter, is to make people more mining conscious both locally and outside the county. Our mineral resources are vast and constitute the real backbone of this area. But at present they are dormant. To interest outside capital and start our mines working again will create jobs for returning service men, increase payrolls and stimulate local business.

WHISKERINO TOUR

The Whiskerino Club of this city were hosts last evening to delegations of Whiskerinos from Colfax, Auburn and Grass Valley.

Chief Whiskerino Ray Speckleweyer conducted the visitors about town, calling attention to the notable whiskers that have acquired local fame. Barefaced males were warned to keep out of sight during the inspection tour of the Whiskerinos.

Bats though blind avoid obstructions while in flight by means of their keen hearing.

The first rule of first aid is always to keep the victim lying flat until a doctor has seen him.

Curare the South American Indian arrow poison is now used in medicine to bring about relaxation of tense muscles.

Cattle declined to an average of 75 per cent of pre war numbers in European countries during the war.
